

Smart Data Loggers

Wherefy IoT data loggers are India's top smart plug-and-play gateways, compatible with over 100 brands of solar PV inverters, energy meters, weather stations, variable frequency drives (VFDs), string monitoring systems, and all analog, digital, and MODBUS-enabled sensors.

We provide a reliable, scalable, and flexible solution for data acquisition from your assets, enabling seamless installation and hassle-free operations.

Available in

GPRS

4G

LAN

Wi-Fi

Fits for all

MODBUS networks

Connects up to

32 slave devices

Remote configuration available
over the air

Integrates with all sensors
analog & digital

custom data storage option
local data storage

Master control
slave control ability

IP65

Delivered with

IP-65 Enclosure

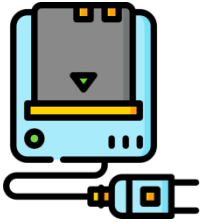

Optional
battery backup (If req)
